MARCH 03, 2023

Mackrell International (MI) has secured its eleventh consecutive ranking as a leading global network in the Chambers Directory, a premier legal industry directory.

The Chambers Global Guide ranks the top lawyers, law firms and law firm networks in more than 190 countries across the world. Rankings are based on in-depth review by a dedicated and experienced team of researchers.

Sussman Shank LLP has been a member of MI since 2006, and is one of 90-member firms representing around 4,500 lawyers in more than 60 countries. The network continues selectively to grow its coverage across the globe, focusing on high-calibre, dynamic, full-service law firms who will gain from and add value to the MI ecosystem and provide exceptional client-service to businesses of all shapes and sizes.

The network delivers agile, specialist expertise and insight locally and internationally for both new and existing clients – and for member firms.

“Our clients trust us with their interests, both personal and professional, whether their needs are local or international. Membership of MI allows us to cater for that; MI acts as a seamless and strongly-bonded extension of our partnership, and that’s a very powerful offer for our clients now and in the future. It’s a real resource and source of insight and support for all our legal professionals” says Howard Levine, Sussman Shank LLP.

Keith Heddle, Mackrell International’s Managing Director, said; “The unbroken Chambers Recognition is testament to this network’s continued excellence – not just legally and commercially, but due to its vibrant and brilliant people, people who will be there for you in an instant if you need them. And that’s no doubt why we continue to build something very special and are going from strength to strength. We are ‘family’ and we stand shoulder to shoulder, with each other and with our clients.”

More than 25% of MI member firms are ranked in the Chambers directories including over 230 leading individuals. For more information, visit www.mackrell.net.
