Sussman Shank LLP Named One of the 2025 “100 Best Green Workplaces” in Oregon

JUNE 03, 2025

Sussman Shank LLP is proud to be named as one of Oregon’s “100 Best Green Workplaces” for 2025. This year marks our 15th year of recognition, showcasing our efforts toward implementing sustainable practices and upholding our responsibility for environmental conservation. We are among just four law firms recognized this year.

Sustainability is an essential aspect of our workplace culture. We continue to foster a green workplace through effective waste practices, the integration of paperless legal practices and file management, and ongoing education around sustainability. We remain dedicated to environmental conservation and inspiring positive change within the legal industry and beyond.

The “100 Best Green Workplaces” ranking is determined by an anonymous employee survey and an individual assessment of each employer’s sustainability practices.
