Sussman Shank LLP Supports The Movember Foundation

DECEMBER 05, 2024

Sussman Shank LLP proudly participated in the Movember Foundation's annual Movember Campaign for the 16th consecutive year. As the leading global charity dedicated to men's health, the Movember Foundation focuses on raising awareness of suicide prevention, prostate cancer, and testicular cancer.

The campaign encourages participants to grow a mustache, get active, or host a fundraising event – all aimed to spark conversation and raise funds for men's health initiatives. Throughout the month of November, our Sussman Shank members engaged in a firm-wide effort to contribute to this impactful cause. This year, we raised over \$7,500 in support of Movember's cause.
