THE ADVANTAGE OF WORKING WITH ME

My approach when working with clients is to build relationships, collaborate, and gain a full understanding of the client's legal and economic goals. The advantage of working with me is that I am responsive, focused, and practical.

REPRESENTATIVE WORK

Business Litigation

- Represented a closely held business valued at approximately \$100 million in negotiating and drafting a comprehensive Buy-Sell Agreement. The agreement addressed succession planning across multiple generations, aligned with the long-term vision of the business, and balanced the diverse goals of current shareholders.
- Represented company owner in matter alleging violation of fiduciary duties of care and loyalty
- Represented international bank in financial fraud case
- Represented marketing company in contract dispute action against national auto dealer

- Represented national bank in fraudulent transfer action
- Frequently represents commercial landlords and tenants in all types of commercial lease disputes
- Represented regional company against claims alleging theft of trade secrets
- Frequently represents construction companies, manufacturing companies, and service companies involved in all types of contract disputes

Construction/Real Estate

- Successfully represented a construction client in resolving a multi-million dollar contract dispute. Opposing party demanded additional compensation, but through strategic negotiations and clear legal analysis, we demonstrated the claims were unfounded—ultimately helping our client avoid a costly and protracted lawsuit.
- Represented a commercial contractor in a breach of contract and construction lien foreclosure matter. The matter involved a commercial property owner that claimed its agent did not have the authority to bind the owner to a contract. As a result of our representation, the client obtained an arbitration award for the full amount of the claim.
- Represented subcontractor in complex construction dispute involving numerous parties, large cost overruns, and delay damages
- Represented general contractor against a governmental agency involving scope of work and other contract interpretation disputes
- Represented an owner/developer against a general contractor and surety involving claims for breach of contract, fraud, and seeking surety's performance under the Performance Bond
- Represented state university in real estate dispute concerning whether conditions of Bargain and Sale Deed were satisfied

PERSONAL INTERESTS

Outside of the office Jason enjoys spending time with his wife Heidi and their two young children who attend college in faraway states. He also keeps busy with running, skiing, watching live music, reading action packed novels by Vince Flynn, and watching sports—including the Portland Trail Blazers, football, and volleyball. Jason admits he's one of the few native Oregonians that enjoys supporting both the Ducks and the Beavers!
